

Special Issue

Forest Management and Vegetation Restoration: Strategies for Enhancing Socio-Ecological Resilience and Mitigating Climate Change Impacts

Message from the Guest Editors

Dear colleagues, The purpose of this Special Issue is to bring together cutting-edge research that increases our understanding and practice of sustainable forest management and vegetation restoration. This collection of research articles will provide insights into the most recent scientific discoveries, innovative methodologies, and multidisciplinary approaches to supporting healthy forest ecosystems and restoring areas of damage. This Special Issue aligns with the scope of Sustainability, which includes studies on environmental, cultural, economic, and social sustainability. It addresses major challenges in sustainable resource management and emphasizes the importance of forests in building a sustainable future. By contributing to the body of knowledge on sustainable forestry and restoration practices, this Special Issue aims to inform policy, guide management methods, and inspire future research aligned with sustainability goals. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
