

## Special Issue

# Sustainable Agriculture Development: Challenges and Opportunities

### Message from the Guest Editors

The “Sustainable Agriculture Development: Challenges and Opportunities” Special Issue focuses on topics of applied agricultural economics. Agricultural economics as an applied field of economics covers the issues of sustainable farm management, production and resource management, environmental management, rural development, and the impacts of agricultural policies on farms. This Special Issue aims to present state-of-the-art papers related to a wide range of reviews, research papers, research concepts, and perspectives regarding the applications and benefits of sustainable agriculture development. Some of the topics of interest in this Special Issue include (but are not limited to) the following:

- Applied agricultural economics;
- Resource management;
- Agricultural production management;
- Farm management;
- Rural development;
- Impacts of agricultural policies;
- Marketing;
- Circular economy;
- Water resource management;
- Precision agriculture.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
