# Urban Infrastructure Development for Environmental Sustainability

# Message from the Guest Editor

Urban infrastructure development for environmental sustainability is a topic that focuses on creating and improving infrastructure in urban areas with the goal of promoting sustainable practices and minimizing the negative impact on the environment. Sustainable urban infrastructure development includes various areas of focus, including green building design, transportation infrastructure, renewable energy production, and water management. The development of sustainable infrastructure in urban areas is becoming increasingly important as more people move to cities, putting pressure on resources and contributing to climate change. By prioritizing sustainability in urban infrastructure development, cities can reduce their environmental footprint and promote a better quality of life for their residents.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
