

Special Issue

Advancing Water and Soil Sustainability with Integrative Approaches

Message from the Guest Editor

We are pleased to announce a new Special Issue titled “Advancing Water and Soil Sustainability With Integrative Approaches” in the journal *Sustainability*. Environmental degradation, driven by chemical pollution and unsustainable resource utilization, poses a grave threat to sustainable development and public health worldwide. The degradation damages ecosystems, reduces agricultural productivity, and jeopardizes human health. Addressing these issues requires urgent and effective methods of assessment and remediation. This Special Issue aims to highlight the progress made in enhancing the sustainability of water and soil environments. We invite reviews, original research papers and et cetera on, but not limited to, the following topics:

- Risk assessment of water and soil pollution;
- Remediation of water and soil pollution;
- Geochemical behavior of pollutants;
- Improvement of soil fertility;
- Sustainable development of agricultural production.

Guest Editor

Dr. Xiaokai Zhang

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
