

## Special Issue

# Pathways for Aligning Cleaner Production with Planetary Boundaries: Green Innovation, Decarbonization and Circularity in Action

### Message from the Guest Editors

This Special Issue seeks to gather cutting-edge research and practical insights on how cleaner production strategies can effectively align with the concept of planetary boundaries, emphasizing the role of green innovation, decarbonization, and circular economy in shaping sustainable futures. Inspired by the central theme of the 14th International Workshop on Advances in Cleaner Production (IWACP), the issue will highlight pathways that reconcile economic development with environmental limits.

### Guest Editors

Prof. Dr. Feni Agostinho

Prof. Dr. Biagio F. Giannetti

Prof. Dr. Cecília M. V. B. Almeida

Prof. Dr. Fernando J. Díaz López

Prof. Dr. Carmen Teodosiu

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
