

Special Issue

Corporate Finance and Business Administration in Sustainability

Message from the Guest Editor

Corporate finance is becoming central to business administration in sustainability. The corporate finance functions support every aspect of business policies, practices and decisions regarding sustainability and corporate social responsibility. An awareness and understanding of corporate finance and business administration in sustainability is essential to succeed as an executive. This Special Issue will focus on corporate finance, which either helps businesses succeed or fail. In this Special Issue, original research articles and reviews on all areas of corporate finance are welcome. Research areas may include, but are not limited to, the following: financial structure, governance, compensation and incentive, payout, innovation, risk management, financial contracting, green finance and international finance. Keywords

- corporate finance
- business administration
- capital structure
- corporate governance
- executive compensation
- compensation incentives
- risk management
- green finance
- CSR
- ESG

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
