

## Special Issue

# Sustainable Stormwater Management and Green Infrastructure

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Application of green infrastructure to sustainable stormwater management in urbanized regions;
- Green infrastructure as a measure of climate change adaptation and flood reduction;
- Trends, benefits, and limitations of green architecture and low-impact development in urban catchments;
- Economic aspects of sustainable stormwater management, including investment as well as operation and maintenance costs, economic feasibility, cost efficiency, potential benefits, and willingness-to-pay;
- Public policies and social and legal aspects of green infrastructure application to rainwater management;
- Hydrologic efficiency of green infrastructure in limiting the volume and flow rate of surface runoff in urbanized catchments;
- Characteristics of green infrastructure components, including plants, infiltration substrates, drainage materials, etc., affecting its application efficiency in stormwater management.

---

### Guest Editors

Dr. Marcin K. Widomski

Faculty of Environmental Engineering, Lublin University of Technology, Lublin, Poland

Dr. Anna Musz-Pomorska

Faculty of Environmental Engineering, Lublin University of Technology, Lublin, Poland

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
