

Special Issue

From Support to Sustainability: How Entrepreneurial Ecosystems Drive Environmental Impact

Message from the Guest Editors

We invite contributions that share real-world practices and critical reflections on how these organizations support entrepreneurs in creating environmentally sustainable ventures. What tools, partnerships, and technologies are they using? How do they monitor and evaluate the impact of their support—not just on the entrepreneurs' business success, but on the broader sustainability goals they aim to achieve? This issue welcomes case studies, research articles, reflective essays, practice-based insights, and technology tutorials that explore the environmental outcomes of support services, how sustainability is built into their models, and what lessons others can learn.

- entrepreneurship support
- environmental sustainability
- sustainable development goals (SDGs)
- university incubators
- academic libraries
- public libraries
- green innovation
- monitoring and evaluation
- impact measurement
- responsible innovation
- support ecosystems
- sustainability assessment
- technology for good

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
