

## Special Issue

# Human Behavior, Psychology and Sustainable Well-Being: 2nd Edition

### Message from the Guest Editor

In an era defined by unprecedented environmental challenges, the interplay between human behavior, the environment, and sustainable well-being has become paramount. This Special Issue delves into the intricate relationship between our actions, the natural world, and the pursuit of lasting well-being. We invite researchers and scholars to contribute their insights into the complex dynamics that will shape our planet's future. This Special Issue seeks to explore a wide range of topics, including the following:

- The psychology of sustainable behavior
- Climate change and human responses
- Biodiversity conservation
- Sustainable urban planning
- Ecological economics
- Social networks and sustainability
- Community engagement and resilience
- Environmental justice and equity
- Policy and governance
- Environmental education and awareness
- Health and the environment
- Technological innovations
- Cultural perspectives and sustainability

I look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
