

Special Issue

Migration, Diversity and Sustainability in a Changing Emerging Market Landscape

Message from the Guest Editors

Today, it is thought that emerging economies are growing at a faster rate than they were a few decades ago. Much of this is credited to greater mobility and the transfer of capital and migration (Gevorkyan, 2022; Hack-Polay et al., 2021). Some emerging countries are now termed transitional economies (China, Saudi Arabia, Brazil, South Africa, South Korea, etc.) due to their level of development and wealth, which now nears that of some developed nations. These countries have witnessed an engagement of the diaspora in their growth, allowing for the reverse knowledge transfer, which is increasingly known as brain gain (Enkhtaivan, Brusa & Davaadorj, 2021). This Special Issue is construed from the perspective of human capital; thus, it brings together the contributions of diverse players whose impact can only be better appreciated through a systematic and bigger picture, appraising the development forces in emerging economies. We are eager to receive submissions from researchers in both the Global South and the Global North, whose investigations touch on the unspoken contributions that are driving growth in many emerging economies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
