

Special Issue

Sustainable Solutions for Energy-Efficient Buildings and Net-Zero Emissions

Message from the Guest Editors

The building sector represents a critical element within the global energy landscape. As a major energy consumer and source of energy-related carbon emissions, the building sector holds immense potential to assist in energy transitions and to contribute to global climate-change-mitigation efforts.

This Special Issue is dedicated to showcasing cutting-edge research and innovative solutions in building sustainability. It aims to highlight advancements that can enhance buildings' energy efficiency and reduce carbon emissions, thereby contributing to global efforts in sustainable development. The scope of this Special Issue encompasses a wide array of topics, including, but not limited to, the following:

Intelligent Building Operational Control Solutions.
Energy-Efficient and Sustainable Building-Design Solutions.

Sustainable Materials and Construction Methods.

Energy-Efficient HVAC and Lighting Systems.

Renewable Energy Sources for Buildings.

Energy Storage Solutions for Buildings.

Building Energy Modelling and Evaluations.

Solutions for Thermal Comfort and Indoor Air Quality (IAQ).

Building Integration with Smart Grids and Electric Vehicles (EVs).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
