

Special Issue

Circular Economy and Economy Sustainability

Message from the Guest Editor

The circular economy (CE) concept has gained significant attention from the political, economic and scientific fields since CE policies were announced in China in 2002 and the European Union in 2015.

The aim of this Special Issue, entitled “Circular Economy and Economy Sustainability”, is to invite scholars to submit their papers related to the topics of the relationship between CE and the Sustainable Development Goals (SDGs), R-strategies (Reduce, Reuse and Recycle), waste management, environmental, social and governance (ESG), sustainable society, economy sustainability, resource efficiency and eco-efficiency. Methodology developments and empirical research related to CE and ESG are welcome. Systematic literature reviews about CE and economy sustainability are also welcome. Authors should clearly identify the gap of knowledge and novelty of their work as well as highlighting the main relevance of the research outcomes.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
