## **Special Issue**

# Environmental Sustainability in Natural and Engineering Systems

### Message from the Guest Editors

In this Special Issue of Sustainability, we would like to collect contributions that focus on (but are not limited to) the topic of:

- Life cycle thinking in natural and engineering systems;
- Coupled engineering-natural systems;
- Sustainability assessment for natural products;
- Environmental impact assessment for innovative technological process;
- Environmental sustainability assessment tools;
- Conceptualization of innovative engineering systems based on life cycle perspective;
- Process optimization;
- Emerging technologies;
- Resource conservation;
- Life cycle assessment (LCA).

### **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
