Special Issue

Sustainable Development of Pavement Materials, Design, and Road Construction Technologies

Message from the Guest Editors

The Special Issue will provide the most up-to-date research on new pavement materials, design methods, and technologies for road construction. We encourage research papers that cover one or more of the eleven major topics listed below for submission to this Special Issue:

- Introducing new sustainable pavement materials;
- Developing new design methods for pavements;
- Presenting advanced technologies for road construction;
- Introducing non-petroleum sources for materials for pavement construction;
- Assessing life cycle costs of proposed pavement materials:
- Discussing the environmental effects of the newly introduced materials;
- Utilizing recycled, co-products, or waste materials that can benefit pavement performance;
- Discussing the sustainability issue of new materials;
- Presenting new approaches for the characterization of pavement materials;
- Introducing improved test methods in pavement technology;
- Presenting sustainable pavement maintenance and rehabilitation techniques.

Guest Editors

Prof. Dr. Ghazi G. Al-Khateeb

Prof. Dr. Khalid A. Ghuzlan

Prof. Dr. Sherif M. El-Badawy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
