Sustainable Business Management: Innovative Strategies for the Future of the Global Economy

Message from the Guest Editor

In the context of an increasingly advanced industrial revolution, which emphasizes the need for sustainable business management, these paradigms are important for building resilient, responsible, and innovative organizations, capable of responding to contemporary economic and ecological challenges. There is a significant emphasis on integrating transdisciplinary approaches that support not only economic development, but also the integration of social and environmental values within a sustainable framework.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
