Smart Cities for Sustainable Development: Innovations in Spatial Planning and Environmental Management

Message from the Guest Editor

The last few decades have been characterized by the dynamic development and further consolidation of cities that have become centers of innovation, technology, and economy. At the same time, such rapid development also bears challenges related to the management of natural resources, spatial planning, environmental protection, and providing a good quality of life to all citizens. Smart cities, propped up by modern technologies, present innovative solutions to these challenges that are sustainable and can lead to better urban environment management. We invite researchers to contribute original research articles and state-of-the-art reviews, including smart cities, and the innovations in spatial planning and environmental management that are associated with them. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
