

Special Issue

Quality Management in Manufacturing, Industrial, and Systems Engineering for Green Sustainability—2nd Edition

Message from the Guest Editors

Topics of interest encompass a wide range of subjects, including eco-friendly product design and development, sustainable supply chain management, and integrating quality standards and certifications into green manufacturing, industrial, and systems engineering practices.

Research areas may include (but are not limited to) the following:

Quality metrics and key performance indicators (KPIs) for sustainability;

Quality principles in sustainable manufacturing processes;

Sustainable and green supply chain management;

Lean and Six Sigma principles for environmental sustainability;

Total Quality Management (TQM) for green manufacturing;

Application of operations research in sustainable industrial practices;

Quality control and assurance in eco-friendly product design and development;

The role of emerging technologies (Industry 4.0/5.0, IoT,

Data Analytics, AI, etc.) in green quality management;

Data analysis for sustainable quality practices;

Sustainable quality standards and reporting policies, such as SDGs, GRI, ESG, and LEED;

Case studies that demonstrate successful quality management in green initiatives.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
