

## Special Issue

# Research on Marine Biodiversity, Marine Environment Conservation and Sustainability— Current Perspectives, Future Needs and Challenges

### Message from the Guest Editors

The aim of this Special Issue is to collect papers regarding marine biodiversity conservation and sustainability, paying special attention to current perspectives, future needs and challenges of marine habitats. Additionally, this Special Issue invites papers that address the topic of mitigating and restoring marine habitats and their ecosystem services. The focus will be on implementing the European Union's Marine Strategy Framework Directive for European Seas, but submissions are not limited to this. Scientific, technical, and management papers, as well as ideas, opinions, and mini-reviews, are all welcome. The primary objective of this Special Issue is to showcase marine conservation and sustainability, which will be effectively portrayed through a series of anticipated papers. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
