

Special Issue

Sustainable Agriculture for a Resilient Future: Integrating Biodiversity, Climate Strategies and Policy Innovations

Message from the Guest Editors

This Special Issue aims to explore innovative approaches to agriculture that integrate biodiversity, climate strategies, and public policy innovations to achieve sustainable and resilient agriculture. Interdisciplinary research that defines, quantifies, measures, and monitors the performance of agricultural systems using comprehensive methodologies that combine quantitative and qualitative analyses is invited. The scope of this proposal encompasses studies on evaluating biodiversity in agricultural landscapes, mechanisms for adapting to climate change in the agricultural sector, the development and application of technological tools to promote agricultural sustainability, and an analysis of regulatory frameworks that foster agricultural sustainability.

The publication of this Special Issue is intended to contribute to the debate and implementation of comprehensive solutions in the agricultural and environmental fields, in line with the current challenges and the objectives of the United Nations Agenda 2030.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
