

## Special Issue

# Sustainable Production and Supply Chain Management

### Message from the Guest Editors

This Special Issue aims to shed light on sustainable production, operations, and supply chains for providing meaningful managerial implications and research recommendations. The submitted articles are anticipated to act as a 'guide map' for both academics and practitioners in designing and (re)configuring efficient supply networks, building upon the SDGs in the era of digital transformation. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Sustainable production and consumption;
- Sustainable supply chains;
- Sustainable operations management.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
