Special Issue

Collaborative Economy: Policy and Regional Economic Development—2nd Edition

Message from the Guest Editors

Current developments of the global economy shed new light on and increase the importance and potential of the collaborative economy, policy, and regional economic development. Lockdowns due to the COVID-19 pandemic, new monetary policies, the collapse of logistics chains, energy crisis, and emission-cutting targets emphasize the critical inevitability of a collaborative economy and the need for stimulus for regional economic development. Topics of interest for the articles in this Special Issue may include, but are not limited to, the following:

- Collaboration and sustainable consumption;
- Collaborative networks for regional economic development;
- Economic cycles and regional development;
- Infrastructure investment and economic growth;
- Technological portfolios and economic growth;
- The effects of monetary policies on collaboration activities;
- The use of digital collaborative platforms.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
