# **Special Issue**

# Sustainable Built Environment and Indoor Air Quality

### Message from the Guest Editors

This Special Issue focuses on Sustainable built environments and indoor air quality (IAQ), addressing critical gaps in current research. The scope encompasses (a) low-emission building materials, (b) energy-efficient ventilation strategies, (c) advanced IAQ monitoring technologies, and (d) policy frameworks for healthy built environments. Its purpose is to advance interdisciplinary solutions that simultaneously achieve carbon neutrality and occupant health protection. This Special Issue addresses research gaps through innovative insights, cutting-edge technologies, and novel testing/simulation methodologies. It integrates state-of-the-art research outcomes while prioritizing green low-carbon technologies for sustainable buildings and advanced indoor air quality (IAQ) control strategies. By integrating building science, environmental chemistry, and public health perspectives, this issue will provide actionable frameworks for next-generation building standards. We look forward to your contributions and to collectively advancing our understanding and responses to sustainably built environments and indoor air quality.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
