Climate Change Impacts on Ecological Agriculture Sustainability

Message from the Guest Editor

This upcoming Special Issue, entitled "Climate Change Impacts on Ecological Agriculture Sustainability", will delve into critical areas such as climate change adaptation, its impact on agricultural productivity, and the resilience of agroecosystems. Our focus will encompass a broad spectrum of topics, including agroecosystem productivity, food security, poverty alleviation, and the mitigation potential within various agricultural activities such as livestock, fisheries, and forestry. Through rigorous examination, we aim to elucidate the interconnectedness between climate change and ecological agriculture sustainability. This Special Issue will provide valuable insights into strategies that aim to address climate impacts, enhance agricultural resilience, and promote sustainability across diverse agricultural sectors.
