

## Special Issue

# Landslide Hazards and Soil Erosion

### Message from the Guest Editors

We invite scholars working in this field to consider submitting their latest results. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Hazards and sustainability;
- Interdisciplinary approaches;
- Landslide dynamics, mechanisms, and processes;
- Landslide activity;
- Soil erosion;
- Sedimentation;
- Remote sensing and GIS techniques;
- Rainfall-triggered landslides and soil erosion;
- Landslide hazard and soil erosion mapping;
- Empirical methods;
- Numerical models;
- Risk assessment;
- Model validation;
- Early warning;
- Remedial and preventive measures;
- Engineering design.

We look forward to receiving your contributions.  
Prof. Dr. Tomás Fernández

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
