

Special Issue

Renewable Energy Policies and Ecological Economics: Pathways to Sustainability

Message from the Guest Editor

Researchers in the areas of renewable energy policies and ecological economics are encouraged to address and debate the challenges and provide new findings, suggestions, and solutions for environmental, social, and economic sustainability. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Renewable energy policy;
- Renewable energy;
- Green technology;
- Green innovation;
- Technology innovation;
- Eco-innovation;
- Ecological economics;
- Environmental sustainability;
- Social sustainability;
- Economic sustainability;
- Strategic management;
- Business model;
- Environmental governance systems (EGSs);
- Green finance;
- International trade;
- Foreign direct investment;
- Institutions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
