

## Special Issue

# Current Developments in Sustainable Corporate Finance and Financial Innovations

### Message from the Guest Editor

In recent years, as businesses and financial institutions play a crucial role in shaping economies and societies, studies on current developments in sustainable corporate finance and financial innovations are of paramount importance. The studies potentially provide directions to allocate resources towards environmentally friendly initiatives and responsible decision-making within organizations as well as unlock economic opportunities, thus potentially driving positive change and contributing to a more sustainable future. This Special Issue aims to present the state-of-the-art, current challenges, and future trends in all the area of Sustainable Corporate Finance and Financial Innovations.

We invite researchers and practitioners to submit original research papers, case studies, and theoretical perspectives that contribute to the following themes: Sustainable corporate finance innovation; Risk management; Sustainable supply chain ethics; Institutional monitoring; Sustainable stakeholder engagement; Sustainable competitive advantages; Responsible investing; Circular economy; Corporate social performance; Sustainable development.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
