

Special Issue

Electrical Engineering and Sustainable Power Systems

Message from the Guest Editors

Due to the depletion of fossil fuel resources and growing environmental concerns, innovative approaches to generating and utilizing renewable energy are increasingly appealing. This Special Issue aims to spotlight significant advancements in electrical engineering and sustainable power systems, covering various aspects from designing and modelling innovative electrical systems to intelligent energy management, improving power quality, and ensuring electrical system safety. This Special Issue provides a collaborative platform for researchers, engineers, and experts to share their knowledge and discoveries, contributing to shaping a cleaner, more efficient, and environmentally friendly energy future. By uniting efforts, it is possible to catalyze innovative solutions that promote the sustainable use of electrical energy, paving the way for a better world for future generations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
