Special Issue

Sustainable Land Planning

Message from the Guest Editors

Throughout history, land and its resources have been the most valuable asset that communities exploit. The way in which this asset is exploited, through the interaction between people, climate, and resources, can be beneficial or harmful. In this context, sustainable land planning aims to use land resources, soil, above- and underground resources, water, animals, and plants, to conserve their potential over time. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Land administration;
- Land consolidation;
- GIS for rural and urban areas and land resources management;
- Land management;
- Land planning;
- Performance management in land resources exploitation;
- Natural resource management:
- Reducing the carbon footprint;
- Spatial data management;
- Mitigation of natural disasters;
- Real estate in sustainable land development;
- Urban and rural planning.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
