

Special Issue

Environmental Policy as a Tool for Sustainable Development

Message from the Guest Editors

Environmental policy is creating a favorable context for addressing pressing issues of sustainable development, and it serves as a means to achieve sustainable development by addressing environmental, social, and economic dimensions of sustainability by establishing a framework for resource management, economic growth, climate change mitigation, biodiversity conservation, pollution control, waste management, environmental justice, international cooperation, education and awareness, long-term planning, stakeholder engagement, monitoring and evaluation. The Issue aim to collate papers within the following potential areas: energy transition, phasing out of fossil fuel subsidies; Climate Action; investment in climate adaptation and resilience measures; biodiversity conservation; regulations to prevent illegal wildlife trade and protect endangered species; sustainable agriculture; reduction of chemical pesticide and fertilizer use; circular Economy; social equity; natural resource management; green technology Innovation; international cooperation; environmental education and public awareness; long-term planning and reporting... We look forward to your submissions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
