

## Special Issue

# Sustainability in Natural Hazards Mitigation and Landslide Research

### Message from the Guest Editor

Natural hazards, including landslides, pose significant risks to human lives, infrastructure, and the environment. To address these challenges effectively, there is a growing need to integrate sustainability principles into natural hazard mitigation and landslide research. This Special Issue aims to explore innovative approaches, methodologies, and case studies that promote sustainable practices in managing and mitigating the impacts of natural hazards, specifically focusing on landslides. By emphasizing sustainability in natural hazard mitigation and landslide research, this Special Issue seeks to contribute to the collective efforts in building a sustainable environment, resilient communities, and protecting lives and infrastructure. We invite researchers and practitioners to submit their work, showcasing the integration of sustainability principles in addressing the challenges posed by natural hazards, particularly landslides. I look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
