

## Special Issue

# Sustainable Development: Environmental, Social and Economic Pillars of Contemporary Challenges

### Message from the Guest Editor

- Sustainable development is no longer just a theoretical concept, but a real challenge shaping contemporary economic, social and environmental processes.
- The special issue of Sustainable development: environmental, social and economic pillars of contemporary challenges provides a space for interdisciplinary debate on the directions of responsible development in the face of dynamic global changes.
- In this Special Issue, research areas may include (but not limited to) the following
- Theoretical and conceptual foundations of sustainable development
- Entrepreneurship, innovation and business models
- CSR, ESG and responsible management
- Sustainable tourism and regional development
- Education for sustainable development
- Sustainable health care and quality of life
- Sustainable finance and green economy
- Sustainable human resources (HR) management
- Sustainable logistics and supply chains
- Smart City and sustainable development of cities
- Energy, energy transformation and renewable energy
- Environmental protection and natural resources management
- Public policies and sustainable development management

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
