

Special Issue

Eco-Innovation and the Economics of Innovation in Environmental Policy and Practice

Message from the Guest Editors

A recent plethora of entrepreneurial innovations, especially those that engage in actions outside traditional regulatory approaches, have been shown to have significant potential to improve environmental outcomes. We hope that authors examine this wide breadth of entrepreneurship and innovation in sustainability. In this Special Issue, we invite authors to examine the economics of innovation in the environment. Analyses of innovative policy approaches, non-regulatory approaches, and market-focused innovations are invited. This applies to both novel innovations as well as examinations of existing ones. Authors should examine both the innovation and the economics that underlie them, as well as how those innovations impact sustainability. Empirical authors using quantitative or qualitative methodologies are also invited to submit theory-driven examinations surrounding the underlying economics of innovation in sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
