

Special Issue

Sustainable Waste Management and Utilization

Message from the Guest Editors

Sustainability is proud to present a Special Issue welcoming the submission of research papers and literature reviews on topics surrounding “Sustainable Waste Management and Utilization”. The Special Issue will focus on technologies which generate several products of added value with diverse applications (e.g., agriculture, industry, energy). Subtopics of the Special Issue include, but are not limited to, the following:

- Novel applications of technologies to treat organic waste;
- Technologies to recover recyclable materials;
- Options for energy recovery from solid waste;
- Uses and applications of bioproducts, recycled materials, and energy obtained from solid waste;
- Economics and environmental impacts (LCC, LCA) of management technologies and use of products obtained.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
