

Special Issue

Sustainable Buildings and Smart Cities

Message from the Guest Editors

The current climate crisis and increase in urban populations pose several environmental, social, and economic challenges to advancing city management. Urban developments are now directed towards green buildings (that utilize innovative materials, architectural designs, and electromechanical systems to minimize emissions) and smart cities (where digital technology is integrated into monitoring and controlling all city functions). This Special Issue aims to tackle modern urbanization and environmental challenges through promoting innovations and creative ideas in sustainable, environmentally friendly, and energy-efficient smart cities. Original research articles and reviews are welcome.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
