

Special Issue

Quality Management and Development of Organizations

Message from the Guest Editors

Quality management is a critical strategy in both profit and non-profit organizations for ensuring customer satisfaction, or even customer loyalty. It includes quality control of design, production and delivery of products and service, as well as business procedures. Changes in quality management systems can allow organizations to adjust their management style accordingly. For this Special Issue, papers on the following topics are welcome:

- New quality management system development and implementation.
- The adjustment of organization for effective implementation of quality management.
- Quality control systems for smart manufacturing.
- The development of Industry 4.0 organization.
- Quality management systems for the realization of sustainability.
- The strategic development of sustainability activities.
- The integration of TQM and sustainability implementation.
- The development of organization for sustainability
- Topics related to quality management and organization

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
