

Special Issue

The Role of Innovation and Technology in Advancing Sustainable Development Goals

Message from the Guest Editors

The world faces a complex challenge: balancing economic growth with environmental responsibility and social well-being. The UN's Sustainable Development Goals (SDGs) provide a roadmap for achieving this balance. Innovation and technology play a crucial role in accelerating progress. While innovation allows us to find new and improved ways to do things, the SDGs outline how developing solutions can meet our needs while minimizing environmental impact. Both developed and developing countries need to understand their specific conditions, roles, and windows of opportunity. This special Issue welcomes articles that reflect and discuss issues related to the following themes: 1. Minimal Life Conditions 2. Health and Well-being 3. Quality Education 4. Clean Technology 5. Industry and Innovation 6. Ecosystems and Infrastructure 7. Climate Action 8. Partnerships for the Sustainable Development Goals

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
