

Special Issue

Pathways to Carbon Neutrality: Circular Economy and Sustainable Innovation for Green Industry

Message from the Guest Editors

This Special Issue aims to create a global platform for interdisciplinary research and practical insights into how industries can transition toward low-carbon, circular, and sustainable models. We propose a more holistic and systemic approach that links circular economy frameworks, carbon management tools, digital technologies, and green industrial practices under the umbrella of sustainable development. We welcome research articles and review papers with the following topics:

- Circular economy design and policy instruments for industry;
- Carbon footprint assessment, reduction strategies, and offsetting mechanisms;
- Nature-based solutions and ecosystem services for climate mitigation;
- Applications of AI, IoT, and digital twins in resource optimization;
- Green technologies for manufacturing, construction, and supply chains;
- Industrial symbiosis, cleaner production, and zero-emission strategies;
- Corporate sustainability reporting, ESG, and regulatory compliance;
- Innovations in energy efficiency and renewable integration for carbon reduction;
- Climate-smart business models and pathways for just industrial transition.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
