

Special Issue

Green Management and Governance in the Energy Industry

Message from the Guest Editors

This Special Issue aims to address the pressing need for green transformation within the energy sector, driven by the dual challenges of climate change and environmental sustainability. The goal of this Special Issue is to promote interdisciplinary discussions on green management and governance in the energy industry. We invite original research and high-quality reviews that explore innovative management models, regulatory frameworks, and technological solutions supporting the sustainable transformation of the energy sector. We welcome original research articles and reviews on the following research areas, including, but not limited to:

- Green strategies in energy companies
- Government policies for green transformation
- ESG integration in energy
- Emerging technologies for green energy
- Carbon trading and environmental compliance

We look forward to receiving your contributions, which will advance the green transformation of the energy sector and provide valuable insights for both academic research and practical industry applications.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
