

## Special Issue

# Supply Chain Sustainability, Data-Driven Supply Chains, Supply Chain Intelligence

### Message from the Guest Editors

This Special Issue focuses on how Industry 4.0 technologies introduce sustainability into the supply chains and, hence, support the Sustainable Development Goals (SDGs) of the United Nations. It is expected that submissions must map their work on these SDGs. Potential topics include, but are not limited to:

- Industry 4.0 technology selection for sustainable supply chain;
- Application of adoption theories in the use of Industry 4.0 technologies for sustainable supply chain management;
- Industry 4.0 facilitating fulfilment of SDGs set by supply chains;
- Data driven supply chains for achieving sustainability;
- Digitally enabled circular supply chains.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
