

Special Issue

Advance in Energy Materials for Sustainability

Message from the Guest Editors

This Special Issue aims to be a collection of both theoretical and experimental contributions to renewable energy materials and advanced energy storage and conversion applications. Original research articles, communications and reviews are welcome! Topics of interest include (but are not limited to) the following:

- Energy storage and energy conversion, such as batteries, supercapacitors, fuel cells, etc.;
- Synthesis and characterization of energy materials;
- Data-driven energy material design and materials theory;
- Electronics, optics and photonics;
- Energy efficient computing, such as data storage materials and devices;
- Novel materials and nanotechnology, such as topological materials and devices.

Guest Editors

Dr. Swastika Banerjee

Dr. Jinjun Ding

Dr. Hanmei Tang

Dr. Zhuoying Zhu

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
