

Special Issue

Sustainable Innovations in Health Economics and Health Management: Opportunities and Challenges

Message from the Guest Editor

This Special Issue seeks theoretical and empirical papers that explore innovative strategies and approaches to addressing urgent concerns in health economics and health management while ensuring sustainability.

Potential topics for this Special Issue include, but are not limited to, the following:

- Sustainable financing models for healthcare systems
- Innovative strategies for cost containment and efficiency in healthcare delivery
- The role of technology in promoting sustainable health management practices
- Equity and accessibility in healthcare innovations
- Sustainable workforce development and capacity building in healthcare
- Collaborative approaches to healthcare innovation involving public–private partnerships
- The impact of sustainable health innovations on patient outcomes and quality of care
- Sustainable supply chain management in healthcare
- Sustainable waste management practices in healthcare facilities
- The role of health economics in promoting sustainable healthcare policies

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
