

Special Issue

Implementing Green Innovation for Environmental Sustainability: Opportunities and Challenges

Message from the Guest Editors

Living within the ecological boundary of this planet is both a challenge and responsibility of all. In this respect, we require a global partnership and collaboration in line with the spirit of SDG-17: Partnerships for the Goal. We need to mobilize and share knowledge, expertise, technology, and financial resources to achieve the objectives of the Sustainable Development Goals in all countries. We invite academics to offer insight into the differences that exist in the design and implementation of green innovation under various economic, public policy, cultural and resource contexts. Research topics may include, but are not limited to, the following themes:

- Green Innovation and Gender Equality
- Green Innovation and Smart Cities and Communities
- Green Innovation and Higher Education
- Green Innovation and Accounting
- Green Innovation in Food and Nutrition Industry

We welcome original research papers, case studies, and articles on new public policies, theories, and frameworks.

Guest Editors

Dr. Ashish Malik

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
