

Special Issue

Sustainable and Resilient Civil Engineering Structures

Message from the Guest Editors

This Special Issue seeks to enhance the comprehension and evolution of sustainable and resilient civil engineering structures by tackling the dual concerns of environmental sustainability and structural resilience. The focus is on innovative methodologies, materials, and technologies that contribute to sustainable construction practices and enhance the resilience of civil engineering structures against hazards. Topics of interest, focusing on performance and assessment under hazards and environmental effects, include (but are not limited to):

- New civil engineering materials/products aimed at enhanced performance or sustainability;
- Emerging civil engineering structural systems, such as sustainable and self-centering structures;
- Retrofitting existing civil engineering structures;
- Application of smart materials for civil engineering structures;
- Performance evaluation or design of civil engineering.

Guest Editors

Prof. Dr. Shuling Hu

Dr. Ruizhao Zhu

Dr. Ruibin Zhang

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
