

Special Issue

Sustainable Operations, Logistics and Supply Chain Management

Message from the Guest Editors

In an era marked by environmental challenges and resource constraints, the need for sustainable practices in operations, logistics, and supply chain management has never been more pressing. This Special Issue, “Sustainable Operations, Logistics and Supply Chain Management,” seeks to address the critical intersection of sustainability with these fundamental business functions. It aims to explore innovative strategies, frameworks, and technologies that organizations can adopt to minimize their environmental impact, enhance efficiency, and achieve long-term resilience. The papers included in this issue will delve into green logistics, circular supply chains, and sustainable sourcing, highlighting both theoretical advancements and practical implementations. This Special Issue provides a comprehensive understanding of how businesses can align their operational and supply chain practices with sustainability goals by examining case studies, empirical research, and novel methodologies. The ultimate objective is to foster a dialog among researchers, practitioners, and policymakers, driving the integration of sustainable practices in the fabric of global supply chains.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
