

Special Issue

Concerning the Application of Big Data-Based Techniques to Social Sciences

Message from the Guest Editor

Multidisciplinary contributions from scholars with a background in information systems, communications, politics, business, technology, e-research, digital humanities, knowledge management, and data-oriented fields are encouraged to submit a paper to this Special Issue. Potential research topics that may be addressed include (but are not limited to):

- Practical applications of Big Data in communication, online information systems, new media and technology, digital humanities, knowledge management, and broader social sciences;
- Data collection and processing techniques for unstructured data;
- Machine learning for Big Data analytics;
- Analyzing social media in the social sciences;
- Testing theories or models using Big Data;
- Techniques to handle Big Data for e-research (e-politics, e-education, e-government, e-science, etc.);
- Measuring and monitoring data-driven research on the Internet;
- Developing a Big Data formula for online activities;
- Data-centric storytelling and scenarios;
- Case studies relating to the application of data science in interdisciplinary areas.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
