

## Special Issue

# Sustainable Groundwater Management: Multidisciplinary Approaches for Securing Water Resources

### Message from the Guest Editors

It is with great pleasure that we invite you to contribute your novel research findings to this Special Issue, titled "Sustainable Groundwater Management: Multidisciplinary Approaches for Securing Water Resources". This issue is dedicated to advancing the sustainable management, protection, and utilization of groundwater resources. We seek to gather cutting-edge research and practical solutions addressing critical topics, including groundwater recharge techniques and quantification methods, aquifers, including karst systems, characterization using different methods, tracing and environmental isotope techniques, the impacts of climate change and anthropogenic activities, groundwater contamination and remediation, groundwater-surface water interactions, sustainable agricultural practices, innovative technologies, and effective policy and governance frameworks. Groundwater sustainability is crucial for ensuring long-term water security and ecosystem health. We look forward to your valuable contributions that will help advance our understanding and implementation of sustainable hydrogeology practices.

### Guest Editors

Dr. Yassine Ait Brahim

International Water Research Institute, Mohammed VI Polytechnic University, Ben Guerir 43150, Morocco

Dr. Mohamed Ouarani

International Water Research Institute (IWRI), Mohammed VI Polytechnic University (UM6P), Ben Guerir, Morocco

Dr. Youssef Brouziyne

International Water Management Institute (IWMI), Giza, Egypt

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
