# Energy Economics: The Trade-Offs Between Economics, Energy, and Sustainability

### Message from the Guest Editor

The Special Issue on "Energy Economics: The Trade-Offs Between Economics, Energy, and Sustainability" aims to explore the dynamic interactions between energy policies, economic growth, and sustainability goals. In a rapidly changing global landscape, nations face complex decisions in balancing energy demands with economic development and environmental stewardship. This issue welcomes research that addresses the economic trade-offs in the transition to sustainable energy sources, the impact of energy pricing on economic structures, and the role of innovation in minimizing the environmental footprint of energy consumption. It also seeks contributions that analyze the implications of energy-related policies on achieving long-term sustainability, especially in the context of economic growth and environmental preservation. Interdisciplinary approaches and case studies from diverse regions are highly encouraged.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
