

Special Issue

Sustainable Transport Planning: Reducing Emissions for a Greener Future

Message from the Guest Editor

This special Issue aims to provide a platform for sustainable transport planning, focusing on reducing emissions and contributing to a greener future. This Issue seeks contributions that explore strategies, methodologies, and technologies to enhance sustainability in transportation, emphasis on minimizing environmental impact and improving efficiency. Papers on, but not limited to, the following topics are welcome:

- Urban transport planning and emissions reduction;
- Smart city initiatives for sustainable mobility;
- Walking, cycling and micro-mobility integration;
- Multi-modal transportation solutions;
- Public transportation systems and sustainability;
- Transit-oriented development;
- Sustainable freight and logistics management;
- Transportation policy and governance for sustainability;
- Green infrastructure;
- Low-emission vehicles;
- Climate change mitigation in transport planning;
- Emissions monitoring and reporting in transport systems.

This Special Issue aims to advance sustainable transport planning by fostering discussions that are essential to reducing emissions and enhancing environmental performance in the transportation sector.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
