

Special Issue

Ecology Meets Empathy: Human Perception in Biodiversity and Sustainability

Message from the Guest Editors

We invite contributions that examine the diverse aspects of this integration, including public participation, the evaluation of biodiversity indicators, and the development of ecological conservation approaches.

The scope of this Special Issue further includes the interplay between urban governance and diverse thematic areas such as ecosystem service assessment and provision, forestry, ecology, sociology, urban planning, and how people perceive and relate to nature. By drawing on interdisciplinary perspectives—from urban studies and ecology to forestry, psychology, economics, and biodiversity science—this Special Issue aims to offer a holistic understanding of how sustainable ecosystem management and biodiversity conservation are mutually connected with human perception. We seek to offer novel insights into biodiversity conservation planning and policy, enriching the existing literature with integrated viewpoints. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
