

Special Issue

Drought Management in Semi-Arid and Arid Environments for Food Security

Message from the Guest Editors

This Special Issue aims to document the work conducted across the region on the integrated drought risk management. Further, the respective BMPs along with region-specific frameworks will also be considered for this Special Issue. This will be an opportunity to raise the voice of the land, as encouraged by the United Nations Convention to Combat Desertification (UNCCD) and promote practices that reduce and ultimately avoid land degradation and achieve a land degradation neutrality for the security of our food.

Guest Editors

Dr. Waqar Ahmad

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
